EDUCATION

Dalmia Public School

Class X, Percentage - 93.2

Till July 2020

Gujarat, India

Dalmia Public School

Class XII, Percentage - 93.4

July 2020 - July 2022

Gujarat, India

Indian Institute of Information Technology, Sri City

BTech in Computer Science and Engineering (CGPA:8.85 [Present])

Aug 2023 - Present

Chittoor, Andhra Pradesh, India

EXPERIENCE

Hostel Complaint Management System | IIIT Sri City

Dec 2025 – May 2026

- Delivered a hostel complaint management system for **2000+** users using **MERN stack**, with a **multi-role architecture** supporting **7 user roles** (student, caretaker, warden, hostel_office, chief_warden, electrician, plumber) and **37 REST APIs** for authentication, complaint lifespan and tracking.
- Orchestrated complaint classification with **6 categories** and **4 severity levels** to standardize prioritization. Crafted an **automated escalation system** for unresolved complaints based on defined timelines.
- Monitored a complaint lifecycle pipeline using **4 states** and **5 confirmation states** for **closed-loop tracking**.
- Integrated an **Excel-based onboarding workflow** and enabled media-based complaint tracking using **Cloudinary + Multer**.

PROJECTS

OmniPrep 🌐 GitHub 🌐 Live Demo

May 2026 – July 2026

- Engineered modular workspaces with Next.js, Express, PostgreSQL, TypeScript APIs across **11** feature modules resulting in **86 REST API** endpoints powering **DSA, system design, behavioral, and mock interview** flows.
- Introduced **Gemini and Judge0**-based assessment workflows backed by automated **background workers** enabling **async job queues** for AI scoring via **BullMQ** Redis queues with **3** evaluation job types.
- Designed **20** PostgreSQL models with **59 indexes** and **19** unique constraints enabling **filtered pagination** and **fast search response** queried using **access and refresh token** based requests enforcing secure authentication.
- Developed **57 Zod validation** schemas for authentication, **4 Multer** media pipelines uploading diagrams, resumes, and avatars to **Cloudinary**, **Redis-powered caching** before report pipeline and **Monaco Editor** for DSA workspace.

CraveIt 🌐 GitHub 🌐 Live Demo

Dec 2025 – Apr 2026

- Architected a modular **MERN stack-based** food-delivery platform with **3** React portals, **6** Express API routes, Node.js, and MongoDB to deliver **45 RESTful API** endpoints enabling multi-tenant system across **4 codebases** with role-based access for **users, admins, and delivery partners**.
- Implemented **2FA OTP-based authentication** using EmailJS with dedicated auth flows (register/login and verify OTP), and integrated **Stripe** Checkout Sessions enabling secure INR payments and promo coupon support
- Built **Socket.IO** based real-time order **live map integration** for order tracking with **5 events**, per-order rooms, Haversine ETA computation, and live geolocation streaming from delivery agents.
- Optimized **MongoDB** query performance across **5** Mongoose schemas with **11 indexes**, regex search, multi-field filters, and **Axios-based** secure HTTP requests using **JWT HTTP-only cookies**.

TECHNICAL AND SOFT SKILLS

Languages: C, C++, Java, JavaScript, TypeScript

Frameworks/Libraries: HTML/CSS, Node.js, React.js, Redux, Express.js, Next.js, Tailwind CSS

Databases: MongoDB, MySQL, PostgreSQL, Redis

Developer Tools: Git, GitHub, VS Code, Postman, Prisma ORM

Core Concepts: DBMS, Operating System, Object Oriented Programming (OOPS), Computer Networks, **System Design**

Soft Skills: Quantitative Analysis and Reasoning, Problem Solving

ACHIEVEMENTS

- Solved 600+ problems on LeetCode with a peak rating of 1831 [LeetCode 📄]
- GeeksforGeeks - 125+ problems solved with a Coding score of 346 [GeeksForGeeks 📄]
